NETWORKING PROGRAM APPLICATION

What is the MSAA Networking Program?

The MSAA Networking Program is an online community of individuals with multiple sclerosis and their care partners who are interested in finding peer support and corresponding through email exchange. Participants in the program find it very helpful and reassuring to link with others who are affected by MS and face similar challenges. Additionally, this online format allows people to participate from their home around a schedule that best fits their lifestyle. This use of email correspondence is especially helpful for those who are unable to attend traditional support group meetings but still want to stay connected to the MS community.

How do I participate?

Participants must complete the information below, sign and return this application to MSAA for processing, or register online at www.mymmsaa.org. **MSAA will only post your name, email address and special interests/activities into the Networking Program user group.** This online listing of participants is password-protected and available through the MSAA web site. Once you are registered into the program, MSAA will email your password with instructions on how to navigate the program. The program will also allow participants to update their own contact and personal information whenever needed.

If you have any questions, please contact MSAA at (800) 532-7667 or msaa@mymmsaa.org.
