MSAA
MULTIPLE SCLEROSIS
ASSOCIATION OF AMERICA
Improving Lives Today!

November 1, 2019

The Women of Action Leadership Committee is made up of some of the most prominent and influential women leaders in the greater New Jersey area, making a positive impact on the local MS community. With the support of loyal sponsors, the Multiple Sclerosis Association of America hosts their annual luncheon and fashion show, bringing together clients, care partners, healthcare professionals, and friends of the association to be inspired and take part in this unique fundraising event.

While MSAA continues to be a leading resource for the entire MS community, improving lives today through vital services and support, there is more work to be done. Together, we can make a significant impact in the lives of those with MS. A primary goal of the luncheon is to reach out to active business professionals and community leaders to educate and motivate them to make MSAA one of the charities they support on an ongoing basis.

While the event was founded to celebrate women who want to come together to improve lives today, we also invite and encourage men to attend and participate. Although two thirds of people with MS are women, and women are often care partners, we also recognize the importance of male care partners and supporters to the women in their lives. The luncheon creates an opportunity to empower each other to create a better future for all those living with MS.

The MSAA Women of Action Luncheon brings together industry leaders, corporate partners, clients, healthcare providers, and families from across the state. We hope that you will join us for this important program.
